

XVI WORKSHOP IN INTERNATIONAL ECONOMIS & FINANCE

Call for Papers

Dominican Republic will host the XVI Workshop in International Economics and Finance organized by Universidad Torcuato Di Tella, the World Bank LAC Chief Economist Office and the InterAmerican Development Bank in 2013.

The Workshop will take place on June 6 and 7, 2013. The deadline for submitting papers for this event is March 17, 2013. Papers must be submitted by email to utdtworkshop@utdt.edu in PDF format. The program will be posted in the workshop's web site, www.utdt.edu/ief-workshop, by April 15, 2013.

The workshop is a unique event that brings together top researchers and policy makers from the North and the South to discuss recent theoretical and empirical advances in International Economics and Finance. The goal of the meeting is to gain a better understanding of the macroeconomic problems faced by Latin American countries and to encourage research on the subject. The program's format will be similar to that of our past meetings. We will discuss approximately ten academic papers in closed seminar style sessions and there will be some sessions of a less technical nature open to a broader audience.

We welcome papers on International Economics, Macroeconomics and Finance that address issues of relevance for the economies of Latin America. Some topics of special interest are:

- Financial crises
- Financial regulation
- Sovereign debt
- Capital flows and their effects on emerging economies
- Monetary policy in emerging economies
- Credit markets and economic activity

The papers to be presented in the academic sessions will be selected by a program committee formed by:
