

XIX 2016 Workshop in International Economics and Finance

Date: March 10 to 11, 2016

Location: Bogotá, Colombia

The XIX 2016 Workshop in International Economics and Finance organized by Universidad Torcuato Di Tella, the Office of the Chief Economist of the Latin America and the Caribbean Region at the World Bank, the Inter-American Development Bank's Research Department, LACEA and the Central Bank of Colombia will be held in Bogotá, Colombia on March 10 and 11, 2016.

The workshop is a unique event that brings together top researchers and policy makers from the North and the South to discuss recent theoretical and empirical advances in International Economics and Finance. The goal of the meeting is to gain a better understanding of the macroeconomic problems faced by Latin American countries and to encourage research on the subject. The program's format will be similar to that of our past meetings. We will discuss approximately ten academic papers in closed seminar style sessions and there will be some sessions of a less technical nature open to a broader audience.
